SOLD

EN

Teti Malik, a multifaceted artist, was born and raised in Ukraine. Over the past decade, she has earned her place in the modern-art tattoo scene and, more recently, embarked on a journey of exploration and experimentation with various new mediums.
Since the full-scale invasion of Ukraine in 2022, Teti has primarily resided in Dresden, Germany.

Abstract expressionism serves as a profound outlet for Malik, allowing her to delve into deep emotional intensity and articulate it through deliberate brush strokes on canvas. Her chosen shapes and colors are carefully curated to resonate with the artist's innermost feelings.

The "All Becomes a Memory" series stands as a testament to Malik's artistic vision. Through this collection, the artist seeks to visually capture the fleeting nature of time, exploring the swift passage of days and the diverse moments from our lives that embed themselves layer by layer in our memories. With the passage of time, these recollections undergo a transformative process, altering their primary form and clarity, thereby influencing our attitude toward genuinely joyful or dramatic moments. Ultimately, everything coalesces into the vast tapestry of the past.

PT

Teti Malik, uma artista multifacetada, nasceu e foi criada na Ucrânia. Ao longo da última década, ela conquistou o seu lugar no mundo das tatuagens e da arte moderna e, mais recentemente, embarcou numa jornada de exploração e experimentação com vários novos meios. Desde a invasão em larga escala da Ucrânia em 2022, Teti tem residido principalmente em Dresden, Alemanha.

O expressionismo abstrato funciona como um escape profundo para Malik, permitindo que ela mergulhe numa intensidade emocional profunda e a expresse por meio de pinceladas deliberadas na tela. As formas e cores que escolhe, são cuidadosamente selecionadas para ressoar com os sentimentos mais íntimos da artista.

A série "Tudo se Torna Memória" é um testemunho da visão artística de Malik. Através desta coleção, a artista procura capturar visualmente a natureza fugaz do tempo, explorando a passagem rápida dos dias e os diversos momentos das nossas vidas, que se inserem camada por camada nas nossas memórias. Com o tempo, essas recordações passam por um processo transformador, alterando a sua forma e clareza originais, influenciando assim a nossa atitude em relação a momentos verdadeiramente felizes ou dramáticos. Em última análise, tudo se funde na vasta tapeçaria do passado.
